

Reverse Dutch Weave Wire Mesh

To produce the reverse Dutch Weave mesh, warp wires are taken in a larger diameter than weft wires that provide excellent strength with extremely fine openings. Most of filter clothes are made by this technique with increased opening shapes and positions to improve the filter cake formation.

Reverse Dutch Weave Mesh Type

Mesh count per inch		Wire Dia. mm		Mesh Thickness
Warp	Weft	Warp	Weft	
72	15	0.5 mm	0.5 mm	1.8
132	14	0.355 mm	0.45 mm	1.4
132	18	0.355 mm	0.45 mm	1.4
152	24	0.315 mm	0.355 mm	1.04
228	36	0.19 mm	0.28 mm	0.85
